

Nursery Update -March 2016

Firstly we would like to thank everyone for bringing back your feedback forms and questionnaires. These always help us to self-evaluation our practice and the setting to give us your opinions in order to be the best that we can possibly be.

From reviewing your feedback forms and questionnaires we were very happy with all the positive comments and feedback we had. A few things were brought to our attention, one of them was that a lot of parents would like the menu to be reviewed and possibly changed so myself and Mary have done so. The new menu has been put in to place- we have a two week winter menu and a two week summer menu. Please feel free to have a look at our new menu which will be up in the front entrance and outside all of the rooms. If you have any questions or queries please feel free to speak to room leaders or myself and Megan. We hope that this will fulfil your wishes and benefit all of the children. The new menus will be on our website as soon as possible.

We were also made aware recently that the outside lights not working on the steps were a concern. Please note that there was an under lined fault with the wiring which took a while to fix. However they are now all working and we are sorry for any inconvenience that this may have caused to anyone.

I would like to inform you that as Mary's role as deputy manager has grown we felt that it was a beneficial change to have Mary as a supernumerary, meaning that she will no longer be counted in preschools room ratio. Mary of course will continue to support preschool but will also support other rooms now to ensure best practise and opportunities across the nursery. You will now be seeing lots of myself and Mary around the setting (:

Reminders:

Please remember to collect **Sainsbury's active kid's** vouchers! Please give any vouchers to a staff member; we will have a box situated in the front entrance when it arrives from Sainsbury's!

If you haven't popped in photos for your child's family book then please do so. Again any updated pictures are always welcome (:

If for any reason your child's dietary requirements change, please be sure that you let us know via email 😊

We now have all of our new garden resources outside which the children absolutely love. We are kindly asking if anyone has any old kitchen utensils, to bring them in for our mud kitchen. This would be very much appreciated!

To all preschool parents please ask a member of the preschool team if your child needs a new water bottle. We do clean their water bottles daily and sterilise them often, but due to frequent use a lot of them need replacing. The girls in preschool have asked many times for them to be replaced but they haven't been and the children cannot be drinking out of water bottles that are not meeting our health and safety requirements. We will offer cups so the children always have access to water, but it's really beneficial to have their own they can easily recognise 😊

World book day-3rd March

We are inviting all of the children to dress up as their favourite character from their favourite story and to also bring their favourite story to nursery.

Red nose day-13th March

If you would like to come to nursery wearing something red then please do so, there will be a donation pot in the front entrance (:

Change of bank details - Please remember that as from 1st March all payments need to be paid into our new account. For any of you who may need a reminder then I've popped down below:

METRO Bank

Acc no: 18393891

Sort code: 23-05-80

****As usual please make sure your payment is references with your child's name, non-referenced payments cannot be allocated****

Inset Days: These will be in the next newsletter, thank you in advance for your patience.

Kindest Regards

Megan & the Nursery Team
